

Jefa autopilot drive unit for Hanse 430e, 470e, 540e & 630e

The Hanse 430e, 470e, 540e and 630e are equipped with the Jefa WP800 traverse system. It consists of 2 off WP800 pedestals above deck and an aluminium traverse under deck (see green part in drawing). One of the sheaves is replaced by a sprocket allowing an easy and quick installation of the autopilot drive unit (purple part).

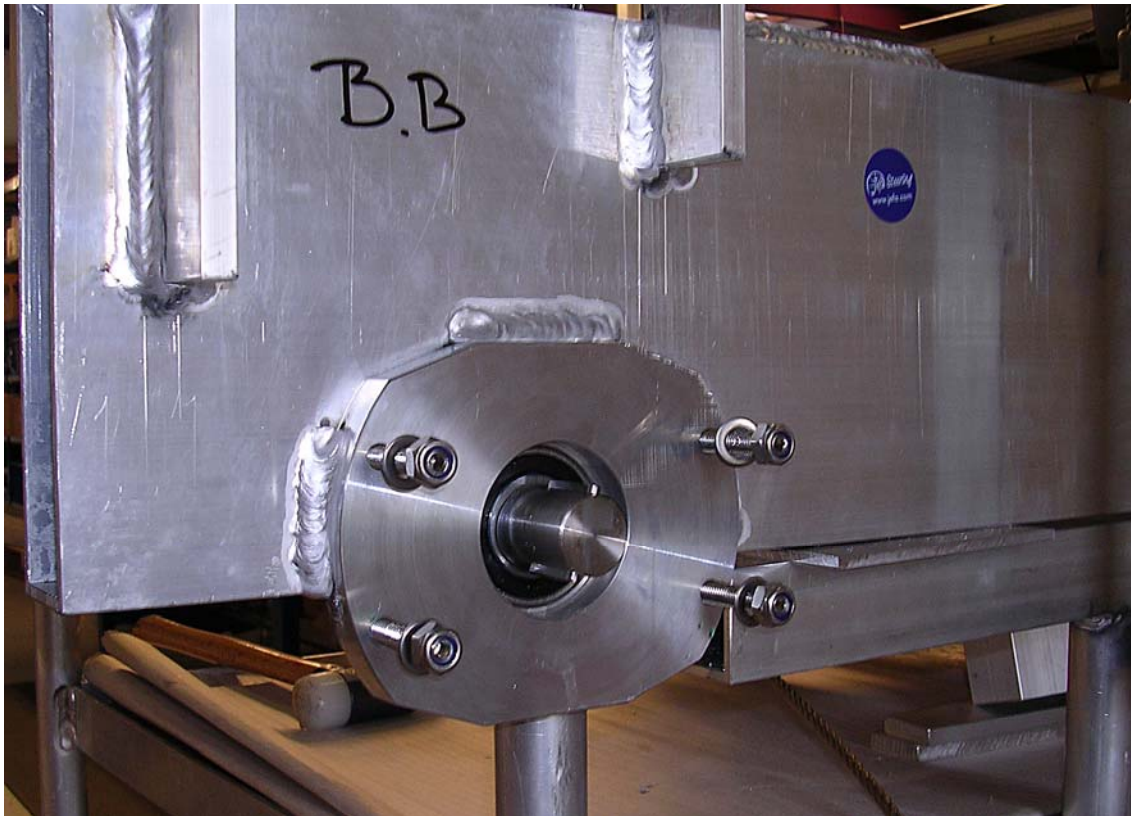

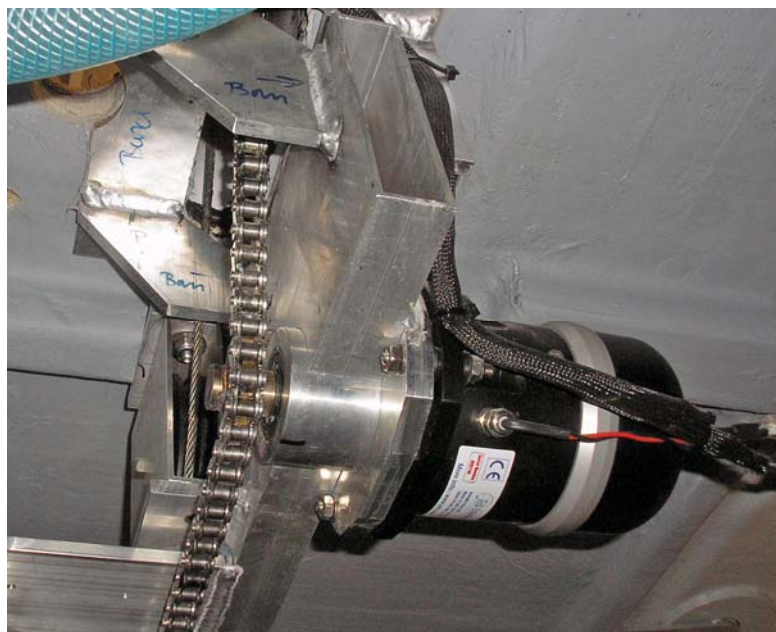

Top view of the traverse installation.

Setup of the traverse system. At the left the autopilot flange is visible.

Detail view of the autopilot connection flange.

Autopilot drive TS250 mounted in a Hanse 630

The Hanse 430 & 470 should use the DU-TS150-12 (12 volts). More details can be found on [this web page](#).

The Hanse 540 & 630 should use the DU-TS250-24 (24 volts). More details can be found on [this web page](#).
