

CONGRATULATIONS ON YOUR CHOICE OF EUROPE'S FINEST PRODUCTION SAILING YACHT....WE WISH YOU MANY YEARS OF ENJOYMENT ON YOUR JEANNEAU.

THIS MANUAL IS DESIGNED TO ASSIST YOU IN THE COMMISSIONING, SERVICE AND MAINTENANCE OF YOUR JEANNEAU SAILBOAT. FOR YOUR CONVENIENCE THIS BOOKLET HAS BEEN DIVIDED INTO THREE (3) SECTIONS.

- 1) COMMISSIONING INSTRUCTIONS/BOAT SYSTEMS
- 2) PARTS GUIDE - DIAGRAMS/PART NUMBERS
- 3) SERVICE RECORD FOR YOUR OWN USE

YOUR JEANNEAU DEALER:

II. COMMISSIONING INSTRUCTIONS BOAT SYSTEMS

DECK FITTINGS

- 1 BOW PULPIT
- 2 FORE MOORING CLEAT
- 3 BOOM DOWNHAUL CHAINPLATE
- 4 SHROUD CHAINPLATES
- 5 BOOM DOWNHAUL EYELET
- 6 FLAT DECK AND SPINNAKER TURNING BLOCKS
- 7 WATER FILL CAP
- 8 GENOA TRACK
- 9 BILGE SHORE CHAINPLATES
- 10 BOOM DOWNHAUL CHAINPLATE
- 11 CLAM CLEAT (BOOM DOWNHAUL)
- 12 CLAM CLEAT AND SPINNAKER TURNING BLOCK CLEATS
- 13 SHEET WINCH (PORTSIDE)
- 14 MAIN SHEET TRACKS
- 15 MAST STEP
- 16 FLAT DECK AND SHEET TURNING BLOCKS
- 17 SHEET TURNING BLOCK STOPS
- 18 HALYARD WINCH
- 19 STANCHION BASE
- 20 FUEL FILL CAP
- 21 SHEET WINCH (STARBOARD)
- 22 AFT MOORING CLEAT
- 23 STERN PULPIT
- 24 BACKSTAY CHAINPLATE
- 25 OARLOCK SUPPORT

STANDING RIGGING

- 1 BACKSTAY
- 2 BOOM TOPPING LIFT
- 3 MAINSHEET TACKLE
- 4 BOOM DOWNHAUL VANG
- 5 UPPER SHROUD
- 6 LOWER AFT SHROUD
- 7 LOWER FORE SHROUD
- 8 STAY

MAST FEATURES

- 1 MAST LIGHT
- 2 MOORING BACKSTAY
- 3 MAIN HALYARD TURNING BLOCKS
AND BOOM TOPPING LIFT
- 4 UPPER SHROUD MOORING
- 5 MOORING STAY
- 6 SPREADER
- 7 LOWER FORE MOORING SHROUDS
- 8 LOWER AFT MOORING SHROUDS
- 9 BOOM TOPPING LIFT BRACKET
- 10 MAIN HALYARD OUTLET
- 11 GOOSENECK
- 12 MAIN HALYARD TURNING BLOCK
- 13 GENOA HALYARD TURNING BLOCK
- 14 GENOA HALYARD OUTLET
- 15 BOOM TOPPING LIFT OUTLET
- 16 BOOM TOPPING LIFT CLEAT
- 17 SPINNAKER HALYARD OUTLET
- 18 BOOM TRACK AND SLIDE
- 19 BOOM TOPPING LIFT TRACK
AND SLIDE
- 20 TRACK SLIDE STOP
- 21 ELECTRICAL WIRING THREADER
- 22 SPINNAKER HALYARD TURNING
BLOCK

SHEET AND HALYARD PLAN

BOOM FEATURES

- 1 CAM STOPS (2 REEF BANDS, 1 CLEW HOIST)
- 2 DOUBLE BLOCK
- 3 DOUBLE BLOCK
- 4 BOOM VANG MOORING BRACKET
- 5 REEF BAND BRACKETS
- 6 TOPPING LIFT BRACE
- 7 BOOM VANG BRACKET
- 8 DOUBLE BLOCK
- 9 DOUBLE BLOCK

WATER AND GAS SYSTEM

- 1 WATER TANK
- 2 WATER FILL GAP
- 3 BRONZE SEACOCK - KITCHEN SINK
- 4 ICEBOX DRAIN TAP
- 5 GAS PILOT LIGHT VALVE
- 6 GAS BOTTLE
- 7 WASHROOM FOOT PUMP
- 8 BRONZE SEACOCK FOR WASHROOM - SEAWATER SUPPLY
- 9 MARINE HEAD SEACOCK
- 10 MANUAL BILGE PUMP

ELECTRICAL SYSTEM

| E | SALON DOME CEILING LIGHT - FUSE # 8 - ORANGE - r4 |
| F | AFT CABIN DOME CEILING LIGHT - FUSE # 9 - GREY - r4 |
| G | WASHROOM DOME CEILING LIGHT - FUSE # 9 - GREY - r4 |
| H | CHART LECTERN - FUSE # 7 - RED - r5 |
| I | STERN LIGHT - FUSE # 1 - RED - r6 |
| J | NAVIGATOR OUTLET - FUSE # 7 - GREY - r7 |
| K | ELECTRICAL BILGE PUMP - FUSE # 5 - RED - r8 |
| | (depending on type of engine) |
| L | COMPASS LIGHT - FUSE # 5 |

FUSE PANEL

Model No. 10-3441

Boat -

Main Battery #1

aux battery #2

- 1 GREEN NAVIGATIONAL LIGHT
- 2 RED NAVIGATIONAL LIGHT
- 3 STERN LIGHT
- 4 MAST LIGHT
- 5 MOORING LIGHT
- 6 DECK LIGHT
- 7 ELECTRICAL BILGE PUMP
- 8 COMPASS LIGHT
- 9 RADIO RECEIVER/TELEPHONE
- 10 CHART LECTERN/NAVIGATOR OUTLET
- 11 SALON DOME CEILING LIGHT
- 12 AFT CABIN DOME CEILING LIGHT
- 13 WASHROOM DOME CEILING LIGHT
- 14 FORE CABIN DOME CEILING LIGHT

INSTRUMENT PANEL

1/4 INCH
1 CM

- 1 PANEL BUTTON
- 2 WATER TEMPERATURE GAUGE
- 3 OIL PRESSURE GAUGE
- 4 ALTERNATOR GAUGE
- 5 STARTER BUTTON
- 6 STOP ENGINE CORD
- 7 SOUNDING ALARM
- 8 ENGINE IGNITION

ENGINE SYSTEM

- 1 EXHAUST SYSTEM
 - 2 ELECTRICAL BILGE PUMP
 - 3 12 VOLT BATTERY
 - 4 WATER COOLED ENGINE HOSE
 - 5 FUEL FILTER
 - 6 FUEL FEEDER
 - 7 FUEL RETURN
 - 8 ON/OFF VALVE
 - 9 FUEL TANK
 - 10 BILGE PUMP OUTLET
 - 11 FUEL CAP
 - 12 FRESH AIR INTAKE
- ACCESS TO STUFFING BOX UNDERNEATH
AFT CABIN CUSHIONS

CENTERBOARD MECHANISM

- 1 BRACKET
- 2 PULLEYS
- 3 WINCH
- 4 RAISING ARM
- 5 SEACOCK
- 6 FLAT BOARD
- 7 SHORE PROP
- 8 FRICTION PLATE
- 9 CENTERBOARD AXLE
- 10 CENTERBOARD

IMPORTANT NOTE: WHEN NOT IN USE, IT IS RECOMMENDED THAT YOU DO NOT EXCESSIVELY BLOCK THE CENTERBOARD IN A HIGH POSITION, AND TO THUS ALLOW A MEAN TO MANEUVER THE CENTERBOARD FOR THE NEXT SEASON.

BEFORE PUTTING THE BOAT IN WATER:

- ANTICIPATE THE EVENTUAL INSTALLATION OF THE DEPTH SOUNDER AND SPEEDOMETER IF YOUR BOAT WILL BE EQUIPPED WITH THESE DEVICES.
- CHECK THE ENGINE OIL LEVEL AS PER YOUR ENGINE MAINTENANCE MANUAL.
- IT IS NECESSARY TO WATERPROOF, USING A LUBRICANT, THE BOW PULPIT AS WELL AS ANY OPTIONAL ACCESSORIES.
- THE CONNECTING OF THE LIGHTS IS DONE BY THE DOMINO SITUATED IN THE COCKPIT WELL.
- ALL SEACOCKS (WASHROOM - ENGINE) SHOULD BE CLOSED.
- THE SIDEWAYS POSITION OF THE SEACOCK LEVER INDICATES THAT THEY ARE CLOSED.
- SECURE THE BOAT FORE AND AFT SO AS TO PREVENT THRASHING FROM THE SIDES OF THE DOCK.

UPON PUTTING THE BOAT IN WATER:

- MAKE SURE THE DEPTH SOUNDER AND SPEEDOMETER ARE WATERTIGHT.
- CHECK THE STUFFING BOX FOR LEAKAGE.
- OPEN THE SEACOCKS AND MAKE SURE THEY ARE WATERTIGHT WITH THE CORRESPONDING VALVE.

BEFORE STARTING THE ENGINE:

OPEN THE FUEL TANK VALVE.

ENGAGE THE ELECTRICAL CIRCUIT BY ACTIVATING THE BATTERY.

BEFORE STARTING THE ENGINE, DISENGAGE THE REVERSE IN ORDER TO OBTAIN IDLE POSITION.

TO START THE ENGINE, CONSULT THE ENGINE MANUAL.

AS THE ENGINE TURNS OVER, CHECK THE COOLING SYSTEM, THEN LET ENGINE WARM UP A FEW MINUTES, AND PUT FORWARD AND REVERSE INTO GEAR SLOWLY.

CHECK THE ENGINE WATER COOLANT TO MAKE SURE IT IS COMING THROUGH OUTLET - IF THIS IS NOT THE CASE, STOP THE ENGINE IMMEDIATELY AND CHECK THE WATER CIRCUITS.

NOTE: NEVER CUT THE ELECTRICAL CIRCUITS WHILE ENGINE IS RUNNING AS THIS WILL INSTANTLY DO DAMAGE TO THE SYSTEM.

ENGINE

REFER TO MANUAL FURNISHED IN THE BOAT.
IT IS IMPORTANT TO READ THIS CAREFULLY AS IT WILL
GIVE DETAILED EXPLANATIONS ON THE ENGINE FUNCTIONS
AND HOW TO KEEP THE ENGINE IN GOOD RUNNING CONDITION.

PROPELLOR

DO NOT CHANGE THE PROPELLOR WITHOUT CONSULTING
YOUR DEALER.

FUEL FILTER

(CLEANING THE FUEL FILTER.)

- COMPLETELY UNSCREW THE SMALL SCREW
- REMOVE
- EMPTY AND CLEAN
- CHANGE FILTER IF NECESSARY
- REASSEMBLE

STUFFING BOX

AS THE SHAFT TURNS, WATER SHOULD DRIP FROM THE
STUFFING BOX APPROXIMATELY EVERY 5 - 10 SECONDS
AND BE PRACTICALLY WATERTIGHT WHEN DRIPPING
STOPS (A SMALL AMOUNT OF LEAKAGE CAN BE TOLERATED).

TO ADJUST:

- TIGHTEN OR LOOSEN THE TWO (2) SCREWS
- MAKE SURE THE TIGHTENING STRING REMAINS PARALLEL
TO THE BODY OF THE STUFFING BOX

CAREFUL!! NEVER OVER TIGHTEN THE STUFFING BOX
AS THIS WILL VERY RAPIDLY DETERIORATE
THE THREADS SITUATED IN THE INTERIOR.

AT THE END OF THE SEASON, TAKE THE TIGHTENING
STRING COMPLETELY OUT AND CHECK THE CONDITION
OF THE BRAIDING. IF IT IS VERY DRY, OR IF THE
STRING COMES UP AGAINST THE BODY OF THE STUFFING
BOX, IT SHOULD BE CHANGED.

NOTE: THIS PROCEDURE SHOULD ONLY BE DONE OUT
OF THE WATER.

TO DISENGAGE THE REVERSE:

SHIFT INTO NEUTRAL AND PULL THE
BUTTON SITUATED ON THE BASE OF
THE GEAR BOX. IN THIS POSITION,
ONLY THE THROTTLE IS ACTIVATED.

EXHAUST:

EACH YEAR, CHECK THE EXHAUST TANK
AND CHANGE IF NECESSARY

THE BUILDER'S IDENTIFICATION PLATE IS AFFIXED TO THE
BOAT AND MUST HAVE THE FOLLOWING INFORMATION:

- YEAR OF CONSTRUCTION
- TYPE OF BOAT
- SERIES NUMBER
- NAVIGATION CATEGORY
- MAXIMUM HORSEPOWER
- NUMBER OF PERSONS ALLOWED ON BOAT
- MERCHANT MARINE APPROVAL NUMBER
- U.S. HULL I.D. NUMBER
