SUPRA[®] BOATS

SUPRA[®] BOATS

© 2016 Skier's Choice Inc. All Rights Reserved // supraboats.com

MADE IN 2017. BUILT IN 1981.

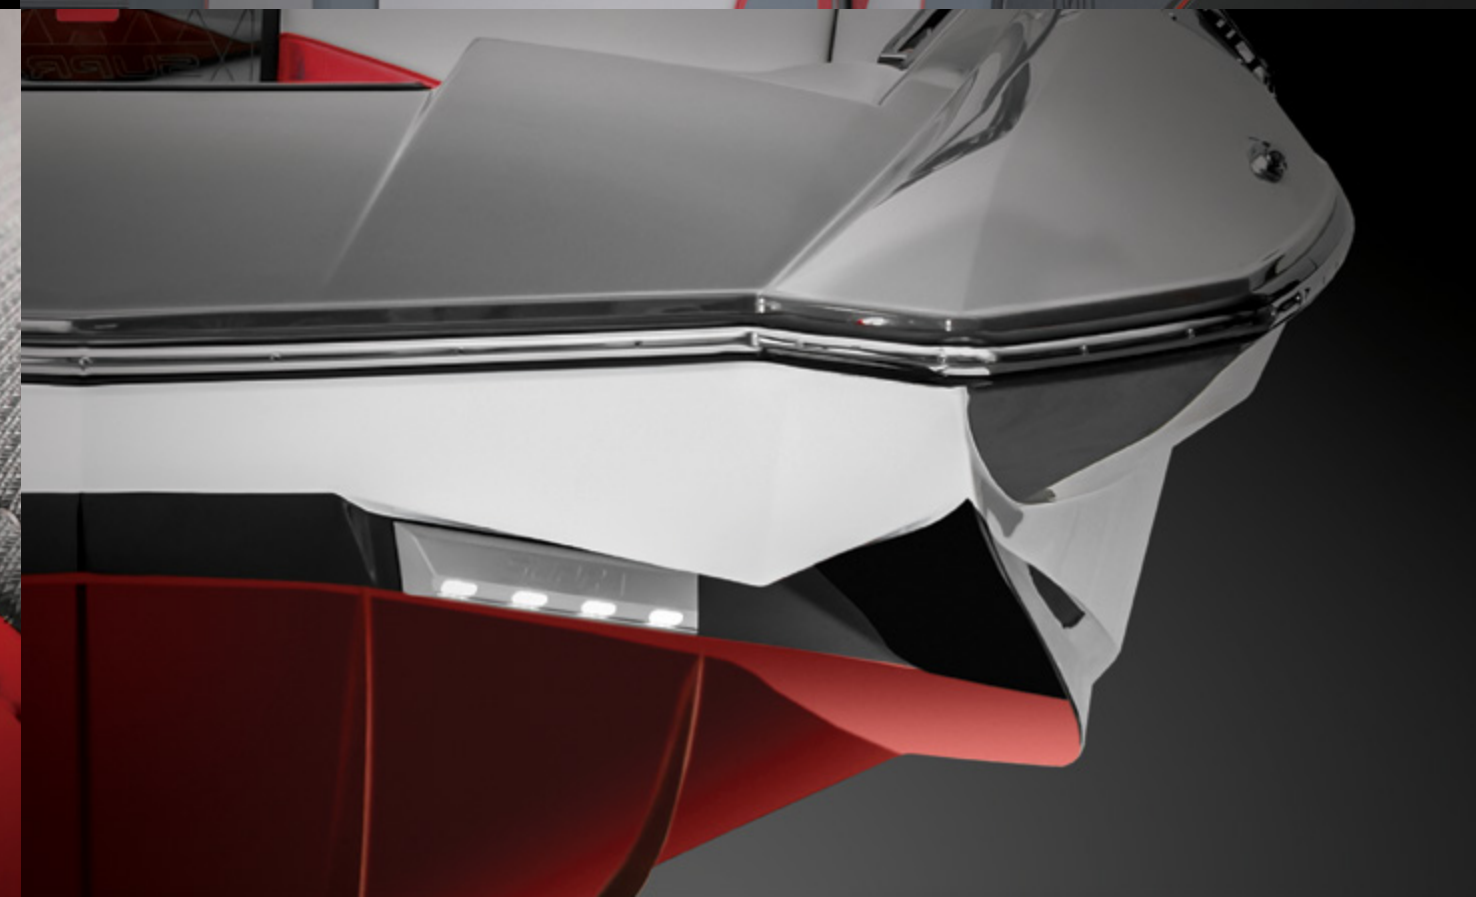

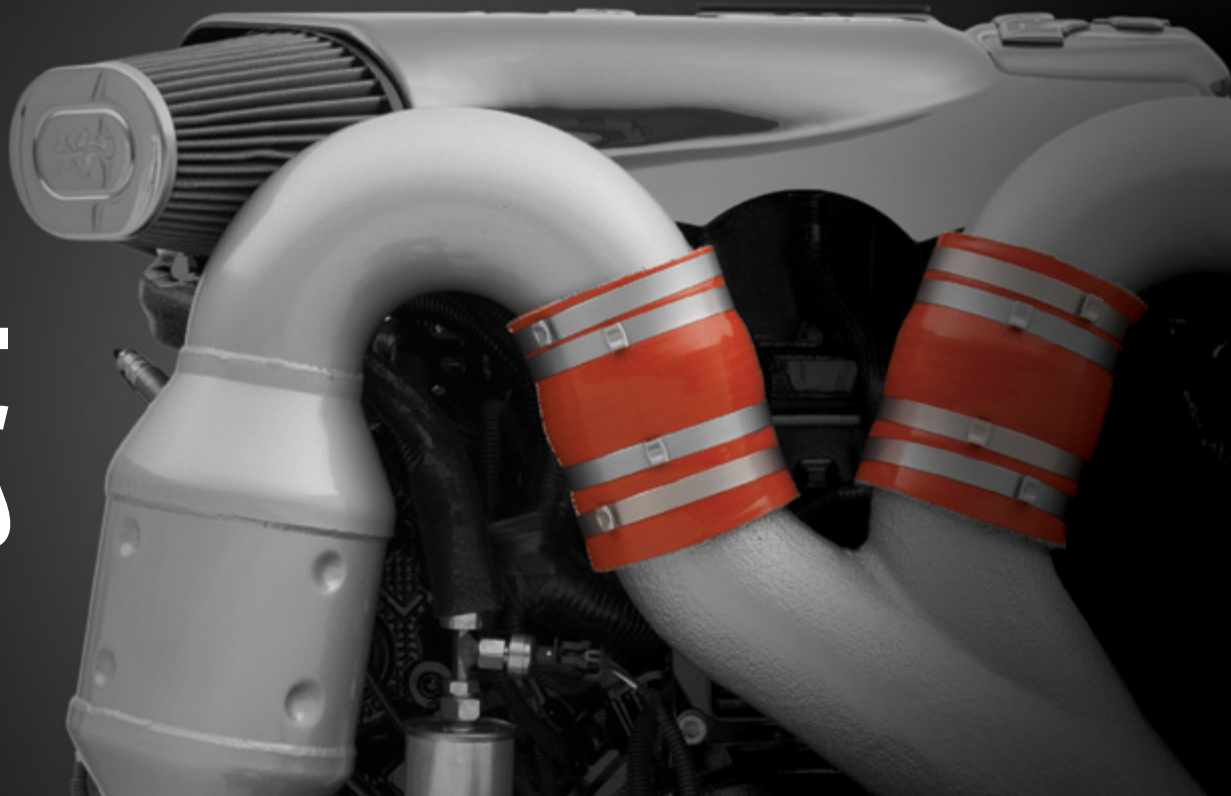

Over the last 30 years, we've learned not to chase titles. Or cheap talk. Or anything else that distracts us from what we do best—creating precision-engineered towboats that elevate your passion for the water. Since 1981, this idea has been ingrained in our DNA. Every feature, every component, every detail is designed to enhance your experience. You'll see the proof in the boats we make. Because we believe proof is greater than promise.

SUPRA® BOATS. WHERE PASSION MEETS PRECISION.

CRAFTED WITH PRECISION IN MARYVILLE, TENNESSEE

OUR BELIEFS
DEFINE US.
AND WE
BELIEVE IN
PRECISION.

HIGH PERFORMANCE

Performance is about more than just power. It's about the sum of every addition. Our standard 6.2L 400 engines give you the power you'd expect. Look at the full picture and you'll see performance come to life from every angle. From competition hull designs to the Supra Smart Plate and Liquid Lead Ballast system, every component adds up to something more.

PRECISION ENGINEERING

The finer details shape the final form. Our attention to engineering detail and commitment to precision is what makes a Supra feel so effortless. With AutoWake™*, you'll get a precise wake from day one. Integrate that with our advanced steering wheel controls, Supra VISION™ Touch System and the VISION™ Transom Camera, and you'll discover a boat that is just as luxurious as it is a feat of engineering.

REFINED INTERIORS

When we say our interiors are refined, that doesn't mean it's just about the looks. Take a seat inside a Supra and you'll find comforts to make any day on the water feel like your best. Convertible passenger seats. Deep storage. Power adjustable heated driver seat and premium audio. It's all within reach in every Supra interior.

BOLD DESIGN

Bold designs don't just exist to grab attention or impress onlookers. They exist to help you make a statement on the water. And we don't stop until every Supra strikes a balance between beauty and aggression. You'll see it in the striking ProEdge™ Tower, billet aluminum accents and signature muscular hull shapes. No matter how you customize your Supra, you'll find its design is always as bold as the frame it's built on.

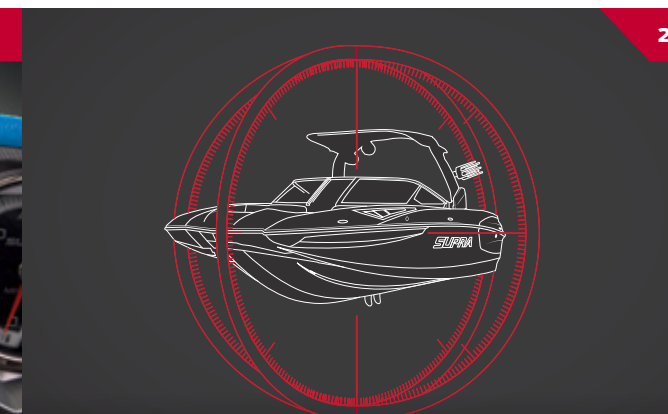

*U.S. Patent no. 8,796,825 and other patents pending.
See www.akierschoice.com/patents

OUR STANDARDS, THEIR OPTIONS.

Class-leading performance, innovative features and refined comfort. These aren't luxuries. They're necessities for the absolute best experience on the water. Features like customizable seating, patented AutoWake™ technology, board racks and biminis are standard on every Supra. This kind of luxury is just another part of the Supra® Boats buying experience.

SUPRA VISION™ TOUCH SYSTEM
The Supra VISION™ Touch System puts you in control of the ride with just a tap of the finger. Navigate through ballast and surf settings, GPS, stereo controls and more in full color.

AUTOWAKE™
Supra's revolutionary AutoWake™ technology responds to conditions inside the boat and adjusts ballast levels automatically to maintain optimal hull position for both surfing and wakeboarding.

RAPTOR BY INDMAR® 400 6.2L ENGINE
The 6.2L Raptor Series by Indmar® is the result of purpose-driven engineering to provide more torque. This gives you faster acceleration, less time to plane, reduced wear-and-tear and better fuel economy.

JL AUDIO® PREMIUM SOUND
JL Audio® comes standard on every Supra to provide a premium soundtrack for your experience on the water. JL Audio® 6.5" speakers and an M Series amplifier are standard in the cockpit.

POWER ADJUSTABLE HEATED DRIVER'S SEAT
A Supra standard, this contoured driver's seat offers heat for those cold evening rides or early morning sessions, and is easily raised and lowered from a dash-mounted toggle switch.

PROEDGE™ TOWER
Not only does this tower add style and functionality to your Supra, it's easily foldable by one person in seconds.

With your Supra, you get the added confidence of the Supra Protection Plan warranty, which includes industry-leading coverage to ensure years of worry-free operation on and off the water.

LIMITED LIFETIME HULL WARRANTY

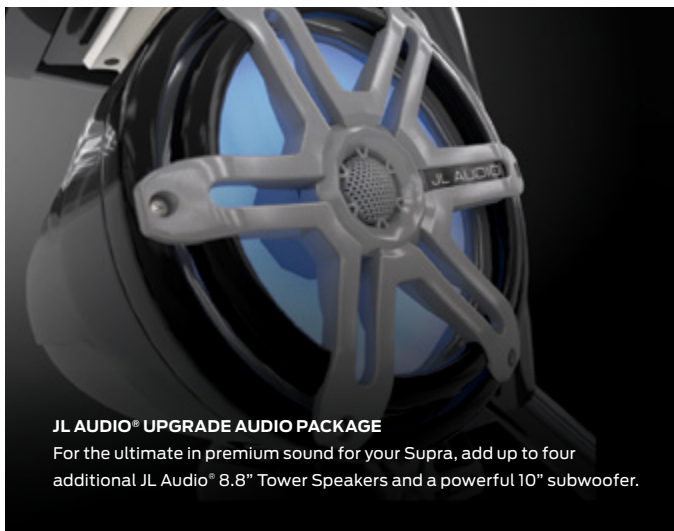

INDMAR 5-YEAR ENGINE WARRANTY

5-YEAR LIMITED PARTS & COMPONENTS WARRANTY

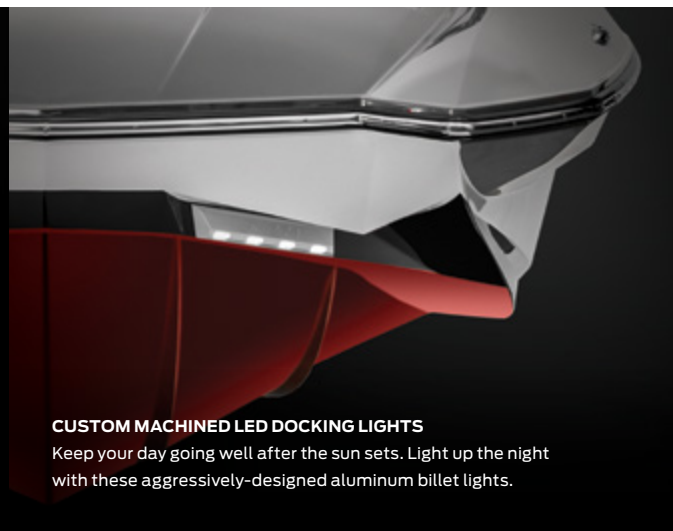

5-YEAR LIMITED BOATMATE TRAILER WARRANTY & ROADSIDE ASSISTANCE PROGRAM

CHOICE IS A BEAUTIFUL THING.

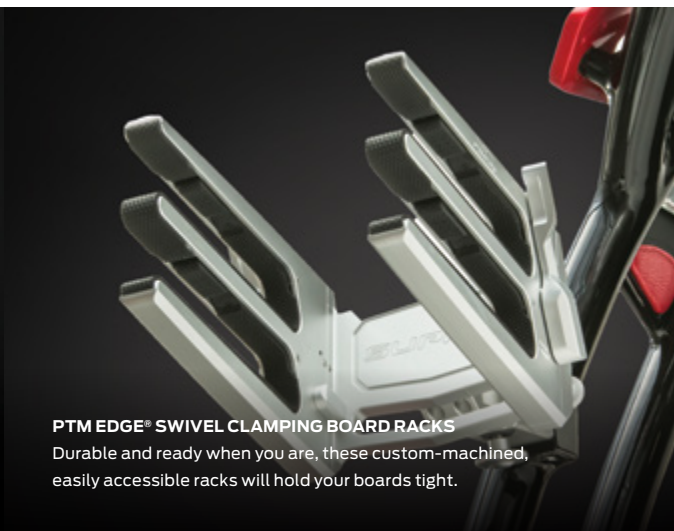

Add the finishing touches that cement your look with the right Supra option. Your boat is an extension of you. That's why we offer so many ways to customize. From steering wheel controls to triple axle trailers, you can build your Supra boat to your exact needs and tastes. Never compromise your vision for perfection.

JL AUDIO® UPGRADE AUDIO PACKAGE
For the ultimate in premium sound for your Supra, add up to four additional JL Audio® 8.8" Tower Speakers and a powerful 10" subwoofer.

CUSTOM MACHINED LED DOCKING LIGHTS
Keep your day going well after the sun sets. Light up the night with these aggressively-designed aluminum billet lights.

PTM EDGE® SWIVEL CLAMPING BOARD RACKS
Durable and ready when you are, these custom-machined, easily accessible racks will hold your boards tight.

SEADEK™ NON-SKID FLOORING
Move freely and confidently around your Supra. This non-slip flooring is a stylish and comfortable alternative to carpeting.

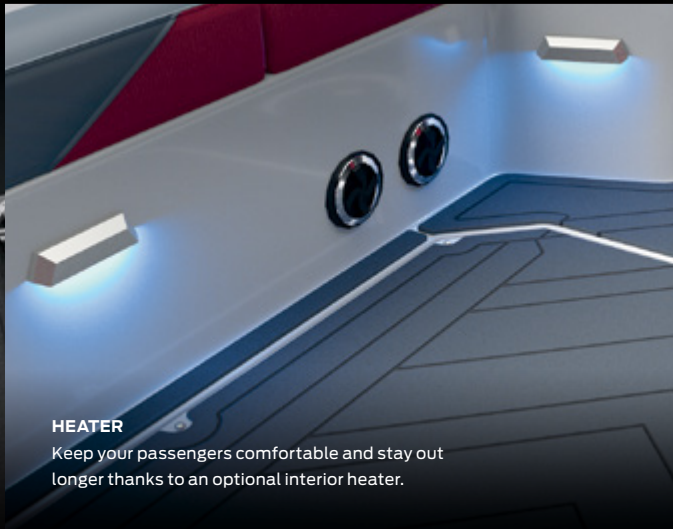

Z5 BIMINI
A performance-infused bimini that's styled to match your Supra, the Z5 Bimini has all of the features you'd expect and the style you crave.

SWELL™ SURF 2.0 SYSTEM
Contoured plates work in tandem with the Supra Competition hull to route water and produce a surf wave with maximum push.

STEERING WHEEL CONTROLS
Take control of everything from your stereo to your swell and even the rear-facing camera without taking your hand off the wheel.

HEATER
Keep your passengers comfortable and stay out longer thanks to an optional interior heater.

ROUSHCHARGED™ RAPTOR BY INDMAR® 6.2L 575 ENGINE
Industry-leading Raptor by Indmar® 6.2L technology paired with the supercharged power of ROUSH® Performance.

IDEAL HULL POSITIONING

How your hull moves through the water is the most important factor in achieving a precise wake or surf wave. AutoWake™ positions the boat in the water at the optimal angle to deliver just that.

INTUITIVE OPERATION

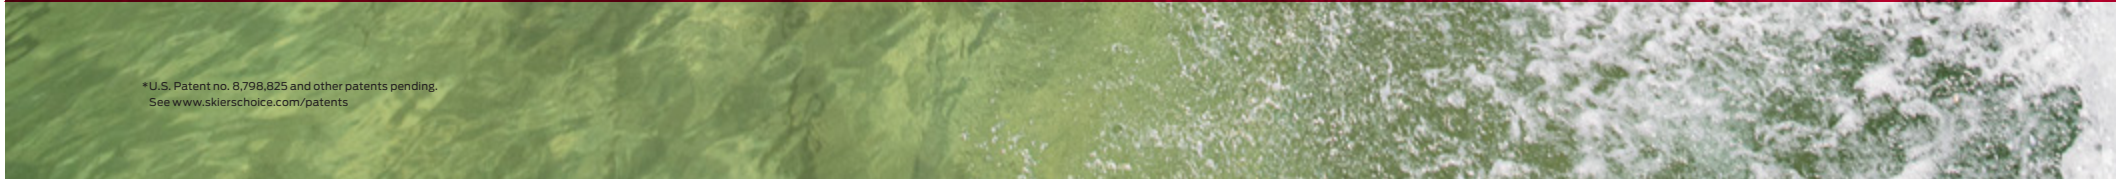

Factory-installed rider profiles in the VISION™ Touch put AutoWake™ to work. Simply choose a rider profile, engage AutoWake™ and enjoy the most precise wakes in the industry.

FULL SYSTEM INTEGRATION

AutoWake™ is fully integrated with the Supra Swell™ Surf 2.0 System and Supra Smart Plate. All three systems are fully customizable depending on rider preference.

CONSTANT MEASUREMENT

AutoWake's integrated sensor constantly measures for changes in weight distribution inside the boat. It detects pitch, roll and depth in the water, and adjusts ballast automatically to maintain your wake's shape.

*U.S. Patent no. 8,798,825 and other patents pending.

SURF PROFILE	RIDER:	SETTING:	PITCH:	ROLL:
	Jordan Wolfe	Portside Surf	9°	-6°

WAKE PROFILE	RIDER:	SETTING:	PITCH:	ROLL:
	Sam Brown	Advanced Wake	8°	0°

ESSENTIAL AUTOWAKE™ FEATURES

VISION™ TOUCH ACTIVATION

AutoWake™ is fully integrated with Supra VISION™ Touch for easy operation.

CUSTOM RIDER PROFILES

Your perfect wake is always waiting with customizable rider profiles.

ADVANCED PUMP MONITORING

Monitors and adjusts how much water is in each area of the ballast system.

PITCH & ROLL ADJUSTMENT

AutoWake™ constantly measures your hull's position in the water and adjusts automatically.

THE QUICKEST PATH TO WAKE PERFECTION.

Between these two technologies, the ultimate ride has never been more attainable. The Swell™ Surf 2.0 System is our best-performing Surf System ever, and the Standard Supra Smart Plate provides endless custom-shaped wakes and waves. It's the same high-performance technology that propels the 2016 Supra Boats Pro Wakeboard and Wake Surf Athletes and it's available to you on every Supra model.

SWELL™ SURF 2.0 SYSTEM

Our second-generation surf system is a hallmark of Supra performance. Redesigned, contoured plates calm water turbulence and route it to the sweet spot—delivering a clean face with more height and unmatched push.

SUPRA LAUNCH SYSTEM

The Supra Launch System combines the power of the Supra Smart Plate and the Swell™ Surf 2.0 System to make planing with a large load faster and smoother than ever before.

SUPRA SMART PLATE

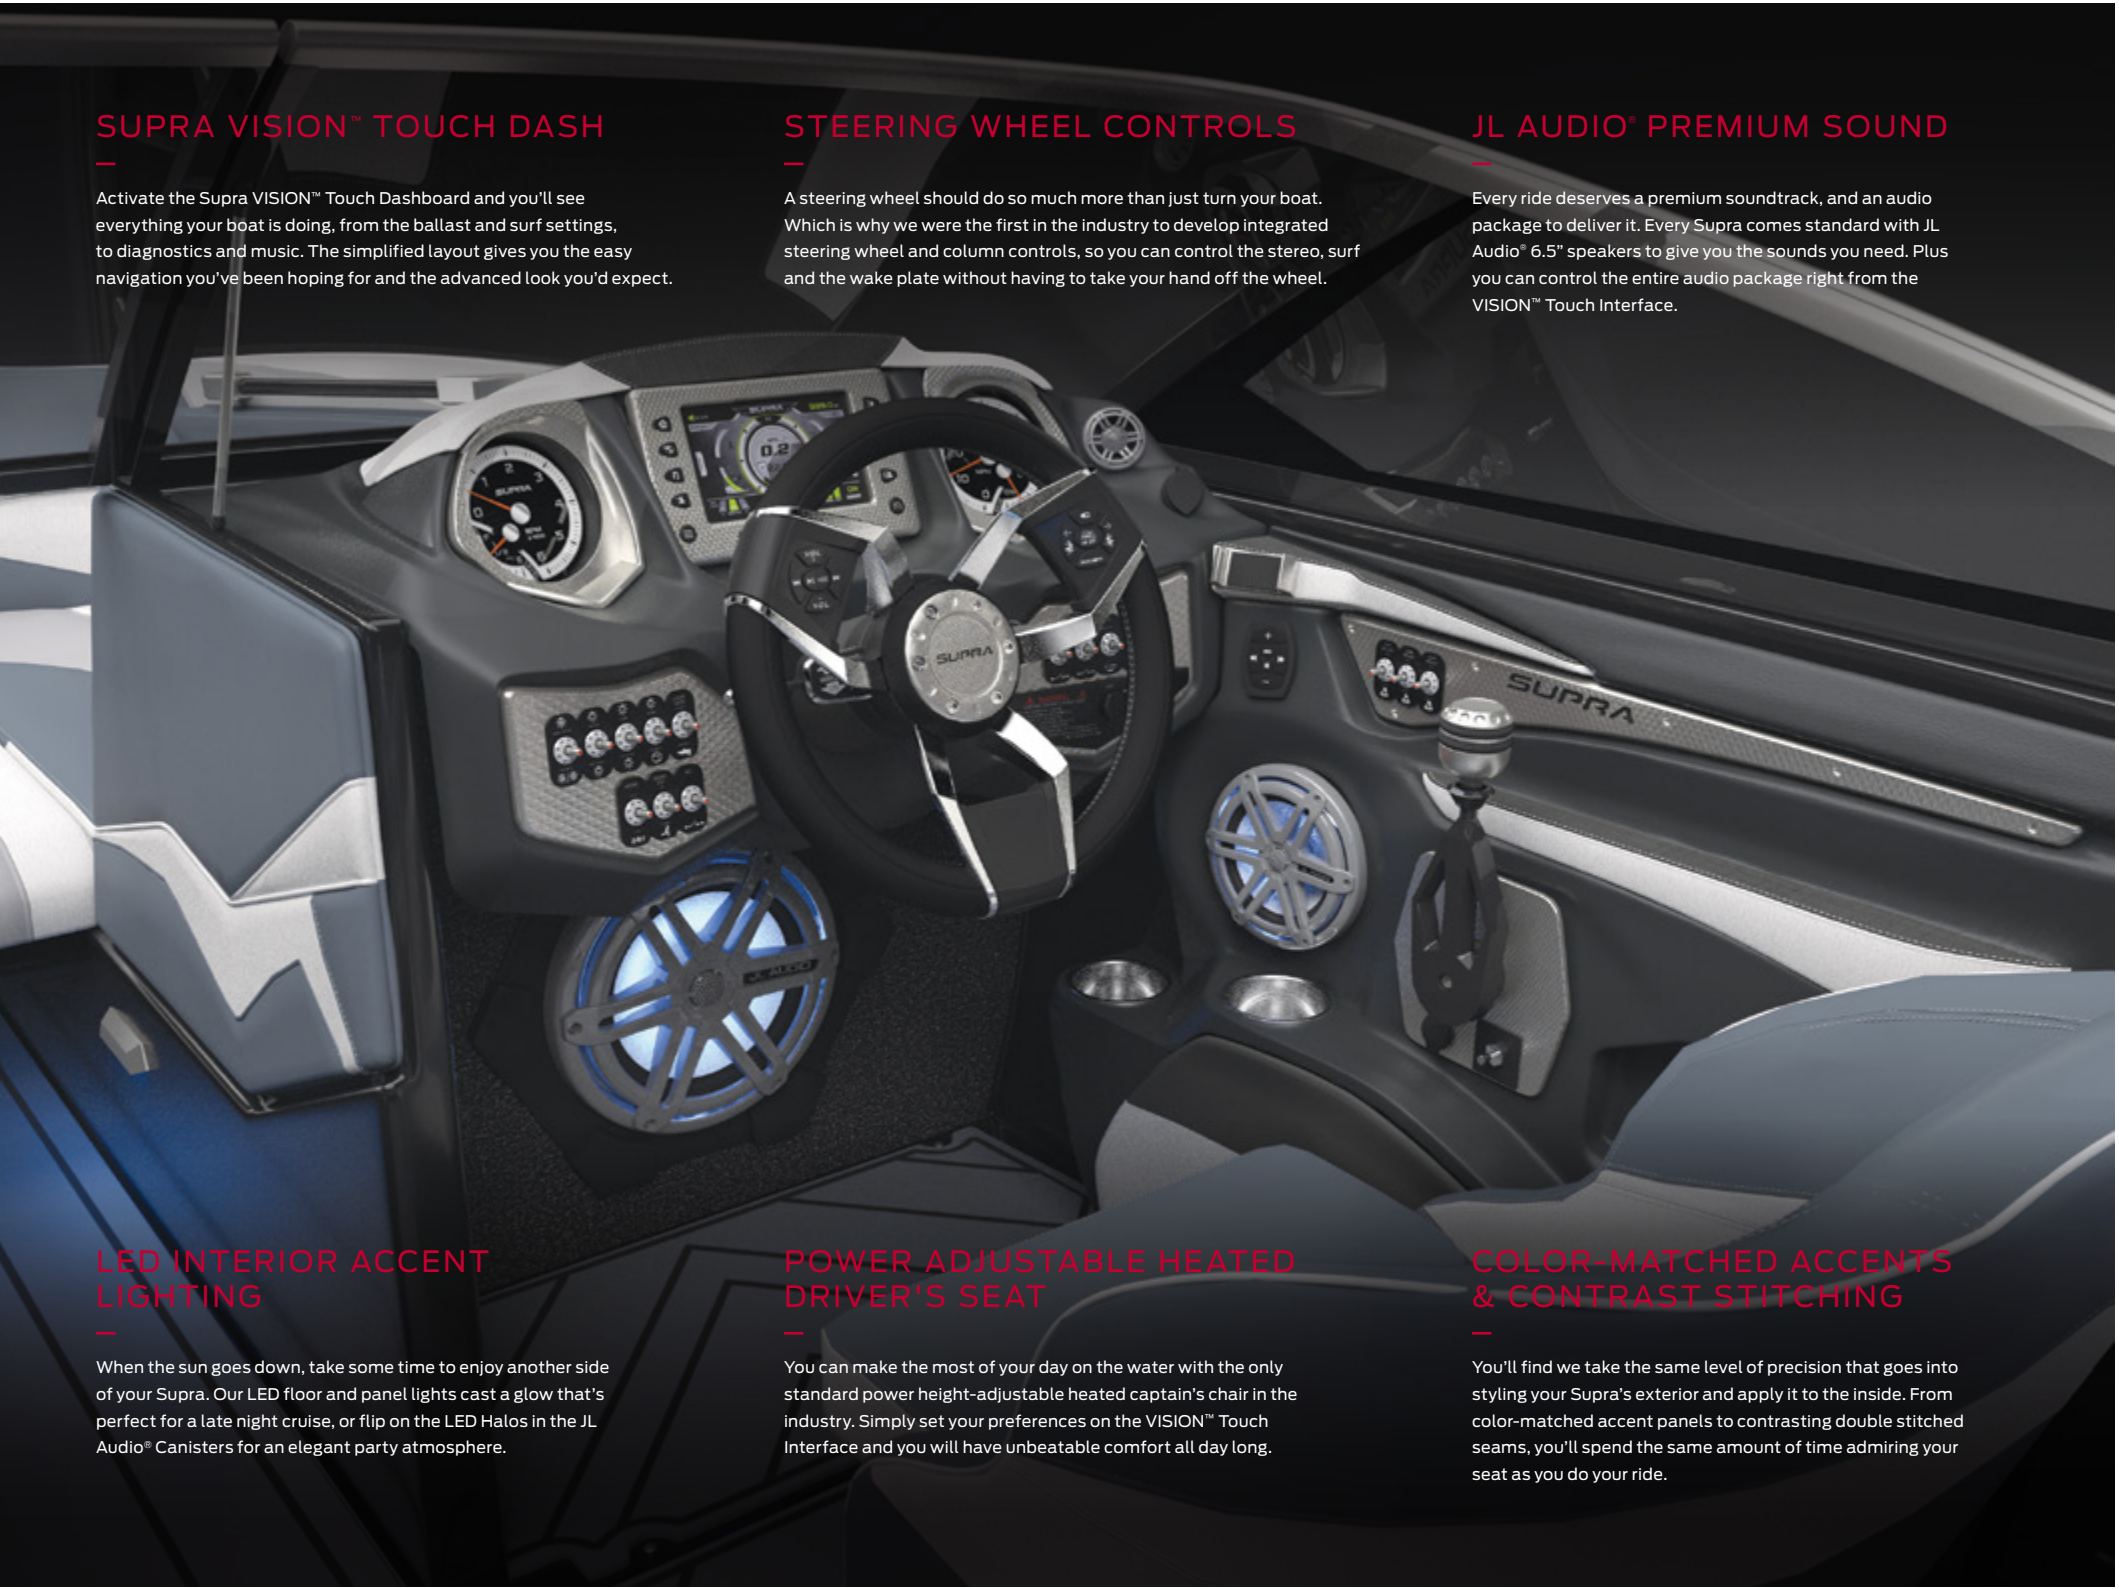

Supra's second generation smart plate provides improved shaping capability with 50% more surface area. Fine-tune your wakes and waves from beginner to advanced.

WELCOME TO YOUR COMMAND CENTER.

When we optimize and advance our features, we take another look at how you can better control them. Take a seat in the captain's chair and you'll find every tool you need to take command of your Supra is right in front of you. Use the intuitive VISION™ Touch Dash to control every aspect from one screen, or utilize the classic analog controls to easily monitor everything. Grab the wheel and feel the bond form between you and your Supra. Because the only thing it's missing is you.

SUPRA VISION™ TOUCH DASH

Activate the Supra VISION™ Touch Dashboard and you'll see everything your boat is doing, from the ballast and surf settings, to diagnostics and music. The simplified layout gives you the easy navigation you've been hoping for and the advanced look you'd expect.

STEERING WHEEL CONTROLS

A steering wheel should do so much more than just turn your boat. Which is why we were the first in the industry to develop integrated steering wheel and column controls, so you can control the stereo, surf and the wake plate without having to take your hand off the wheel.

JL AUDIO® PREMIUM SOUND

Every ride deserves a premium soundtrack, and an audio package to deliver it. Every Supra comes standard with JL Audio® 6.5" speakers to give you the sounds you need. Plus you can control the entire audio package right from the VISION™ Touch Interface.

LED INTERIOR ACCENT LIGHTING

When the sun goes down, take some time to enjoy another side of your Supra. Our LED floor and panel lights cast a glow that's perfect for a late night cruise, or flip on the LED Halos in the JL Audio® Canisters for an elegant party atmosphere.

POWER ADJUSTABLE HEATED DRIVER'S SEAT

You can make the most of your day on the water with the only standard power height-adjustable heated captain's chair in the industry. Simply set your preferences on the VISION™ Touch Interface and you will have unbeatable comfort all day long.

COLOR-MATCHED ACCENTS & CONTRAST STITCHING

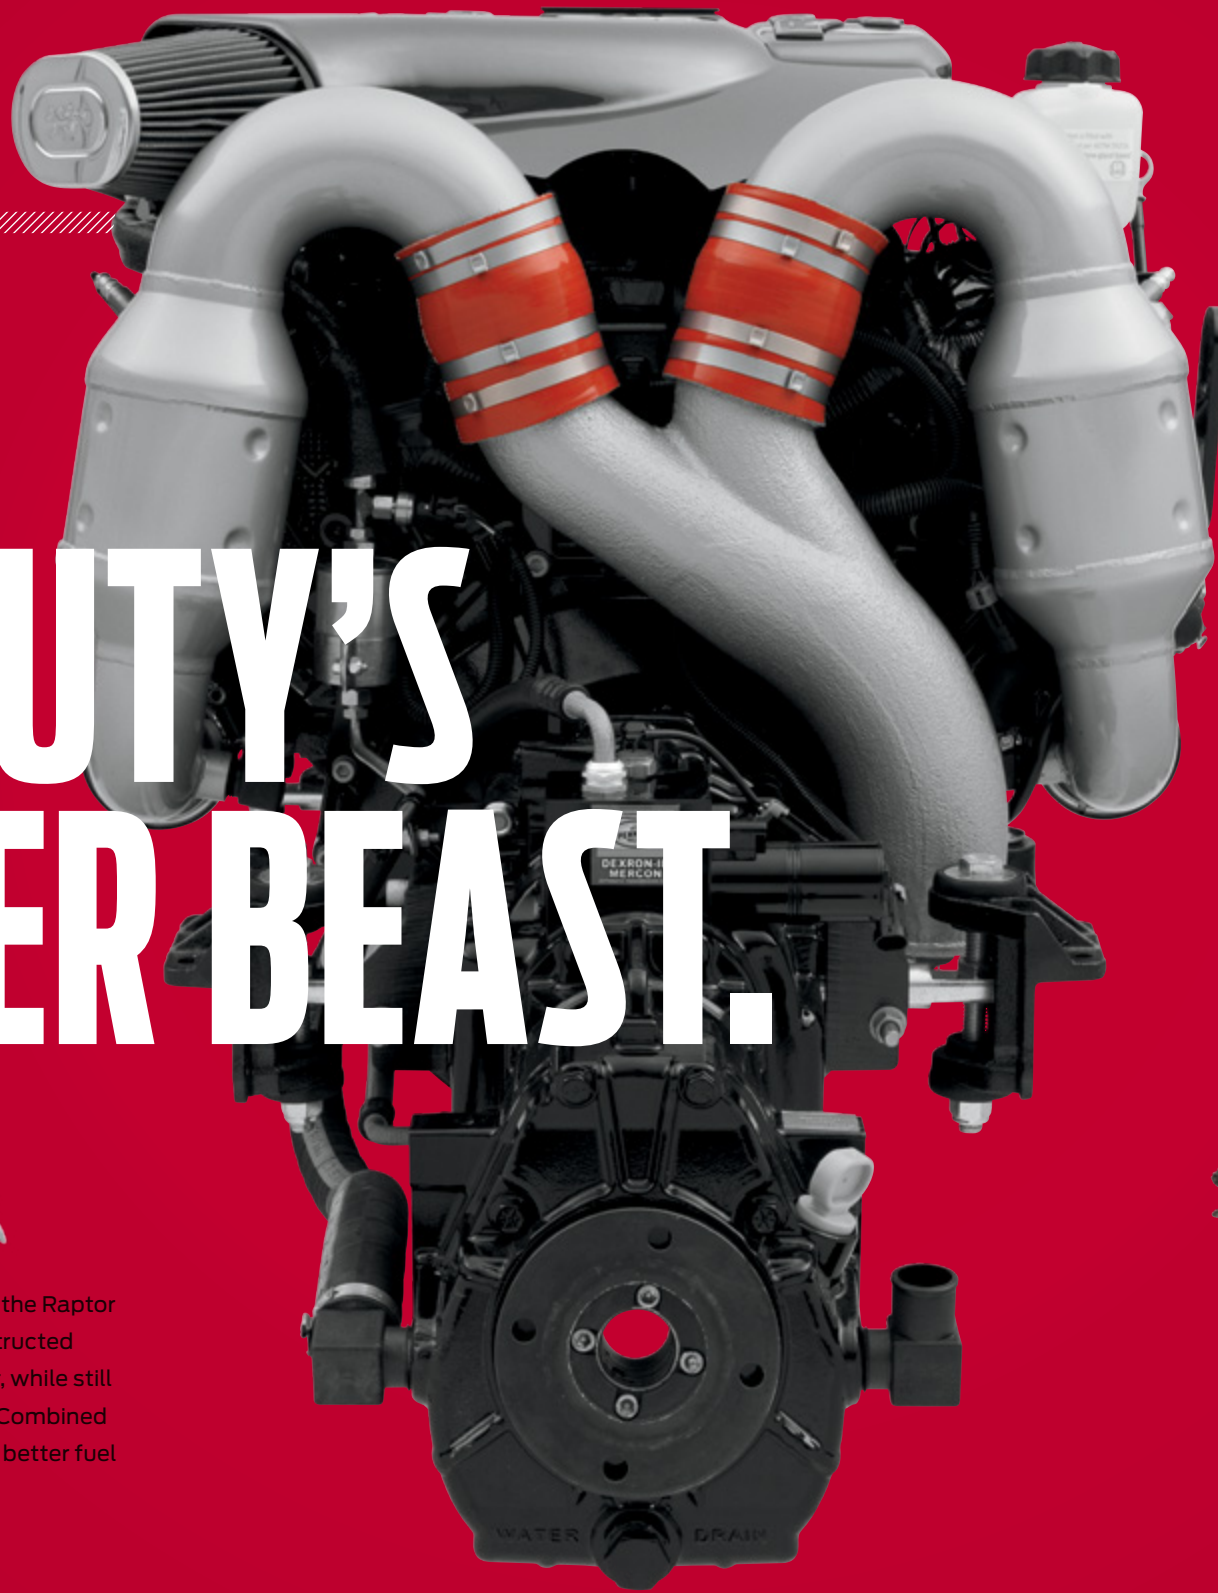

You'll find we take the same level of precision that goes into styling your Supra's exterior and apply it to the inside. From color-matched accent panels to contrasting double stitched seams, you'll spend the same amount of time admiring your seat as you do your ride.

BEAUTY'S INNER BEAST.

To create a great engine, you have to build off of what works. And for the Raptor by Indmar® series, that's the Ford® 6.2L 16-Valve V8. Indmar® deconstructed and reformatted this classic engine for masterful towing in the water, while still giving you the power you'd feel behind an F-150 SVT Raptor on land. Combined with purposeful innovations for more torque, faster acceleration and better fuel efficiency, this Indmar® engine sets the bar as the industry standard.

PROVEN PERFORMANCE

Yesterday's performance mantra was focused on horsepower—a necessary component for top-end speed, but not the right metric for loaded boats in big wake applications. While horsepower is still important today, Supra's power philosophy is centered around torque and water-specific engineering. With Raptor by Indmar's 6.2L displacement, dual spark plug cylinders and a next-generation silent exhaust system, we're not just meeting water sports enthusiasts' expectations. We're setting them.

TOW-FOCUSED TORQUE

Off-the-line boat planing and lightning fast rider pulls are now a reality thanks to Raptor by Indmar's low-end RPM power technology—aka Torque Centric Performance (TCP). This provides best-in-class torque and horsepower where you need it most: between 2,500 and 3,500 RPMs. Even with full ballast and a maxed out crew onboard, Raptor delivers immediate throttle and plane for unparalleled performance in wake sport applications.

ROUSHCHARGED™

When your ride demands even more power, you need to up the ante and go all out. Look no further than the ROUSHcharged™ Raptor by Indmar®. Delivering the most powerful package in the Raptor engine lineup, ROUSH® Performance supercharging technology gives you additional 112 HP and nearly 150 lb.-ft. of torque over the Raptor 440. It's the ideal partner when you need to quickly power out of the hole at max capacity.

FUEL EFFICIENT

The Raptor 6.2L engines run inherently more efficiently, giving you more low-end power with lower fuel consumption. That conveniently translates to more time on the water and less time at the pump. The Raptor's wide band O2 sensors deliver better fuel economy through a broader RPM range while the dual spark plugs create a more efficient combustion.

SE™
450 550

ANYTHING ELSE AND YOU'RE UNDERESTIMATING.

When you're gliding across the water in nearly twenty-five feet of world-class performance, you'll understand exactly what it feels like to experience a premium towboat. An awe-inspiring example of how passion meets precision, the SE is the flagship of the Supra line. Providing industry-leading performance, precision-engineered features, refined interior comfort and bold design, the SE checks every box for the perfect towboat.

SE™ 450 550

STANDARD FEATURES

- Raptor by Indmar® 6.2 L 440 Engine
- Supra® VISION™ Touch Dash System w/ Navionics® Navigation
- Integrated VISION™ Touch Stereo w/ Bluetooth, USB & Auxiliary Inputs
- JL Audio® 6.5" Cockpit Speakers w/ Blue LEDs
- Zero-Off® GPS Speed Control
- Supra® Patented AutoWake™ System
- Column Levers For Cruise & Smartplate Adjustment
- Supra® Smart Plate 2.0
- Livorsi® Electronic Shifting
- Supra™ Liquid Lead Ballast System - 3,200 Lbs
- VISION™ Transom Camera
- Power Height Adjustable Heated Captains Chair
- Rear Facing Convertible Seat w/ Integrated Cockpit Table
- ProEdge™ Tower w/ Fold-Assist & Swivel Board Racks
- Interior LED Lighting w/ Aluminum Housings
- Stowable Forward Bimini w/ Storage Pockets And Cover

And more

OPTIONAL FEATURES

- ROUSHcharged™ Raptor by Indmar® Supercharged 6.2 L 575 Engine
- Supra Swell™ Surf 2.0 System
- Integrated Steering Wheel w/ Wireless Controls
- SeaDek™ Flooring Package

And more

SPACIOUS BOW DESIGN

Combining the style and function of a picklefork bow design with our sleek premium seating, the SE gives you a bow that's spacious as well as comfortable.

SUPRA VISION™ TOUCH SYSTEM

Easily navigate through ballast and surf settings, GPS, stereo controls and more in full color. Supra VISION™ Touch makes the SE as fun to drive as it is to ride behind.

SEADEK™ FLOORING

SeaDek™ Non-Skid flooring features durable construction and laser-cut design—perfect for easy maintenance and superior traction when wet.

VISION™ TRANSCAM CAMERA

Keep tabs on the action. With the VISION™ Transom Camera, you can see everything that's happening behind your boat and enjoy peace of mind.

SA™
400 450 550

A BOAT WITH NOTHING TO PROVE HAS EVERYTHING TO SAY.

One ride behind the 2017 Supra SA and the essence of precision engineering becomes explicitly clear. One look at its bold design and you'll ask yourself how such beautiful form can have so much function. This combination is why the SA is revered by the pros, and it's why we chose the SA to be the official towboat of the Supra Boats Pro Wakeboard and Wakesurf Tour.

Our boats are fueled by the passions of the riders that know them best. And these riders know a thing or two about passion. These are the faces of the athletes pushing wake sports from behind the greatest towboats in the industry. They come from very different backgrounds, sometimes even different continents, but share a common devotion for pushing boundaries and breaking records. When they're not taking center stage in some of the biggest tournaments on the planet, you can find them doing exactly what you do—sharing your passion for the perfect day on the water.

 @Supra_Boats

 @supra_boats

 supra boats

A BOAT BUILT FOR CHAMPIONS.

We love to talk about our features since they're what make our boats the best in the industry. But we also believe that our actions speak louder than our words. So rather than boast about our achievements, we let the pros do that for us. As the title sponsor of the 2016 Pro Wakeboard Tour, every rider got to give it their all behind the only towboat that gives them the power to do so—a Supra. There's a reason we engineer our boats with precision, and that's to give the most advanced riders the performance they need to show their stuff. And we're honored to do so.

WHAT DEFINES YOU IS IN THE DETAILS.

Skier's Choice reserves the right to change model line specifications, equipment, color schemes and pricing at any time without notice or incurring obligations. It is the Dealer's responsibility to adhere to all State and Local regulations and laws governing minimum requirements needed on each boat, such as trailer brakes, kill switches, and other safety equipment.

Skier's Choice encourages all boating participants to learn and follow safe boating practices. There are risks associated with boating and water sports activities. Be mindful of the risks, familiarize yourself with the environment, know your limits, and conduct yourself accordingly. Read your Owner's Manual and comply with all warnings. For additional safety information, please visit the US Coast Guard Auxiliary at www.uscgauxed.org or the Water Sports Industry Association at www.wsia.net.
