SUPRA® BOATS

TN

PRECISION BUILT IN
MARYVILLE, TENNESSEE

LEGACIES ARE BUILT ON PASSION

IMAGINE A LUXURY TOWBOAT THAT TELLS THE WORLD YOU PREFER HIGH PERFORMANCE OVER SETTling FOR ANYTHING LESS THAN PERFECTION. IT'S YOUR GENERATIONS-LONG OBSESSION THAT YOU PROUDLY SHARE WITH FAMILY AND FRIENDS. THIS TOWBOAT IS PROOF OF YOUR HARD WORK, DEDICATION AND PASSION IN ALL ASPECTS OF LIFE. IT TELLS THE REST OF THE WORLD THAT YOU'VE ARRIVED. IT'S YOUR LEGACY. YOUR PASSION. YOUR SUPRA.®

HIGH PERFORMANCE

When you combine incredible power and torque with pure innovation you start to understand what high performance is truly all about.

SUPRA® COMPETITION HULL

The purpose-built Supra Competition Hull results in massive wakes, stable point and shoot handling and an overall superior ride—no matter the water conditions.

MEGA VELOCITY BALLAST

Our new Mega Velocity Ballast System has capacities of up to 3,500 pounds, six pumps to reduce fill times and produces pro-level wakes and waves.

SWELL® SURF 3-D SYSTEM

This revamped system creates tall waves with long pockets and optimal push that's consistent on both sides. Perfect for riders who like to transfer from side to side.

PRECISION ENGINEERING

Your Supra® is a collection of meticulously-engineered details, each one specifically designed to enhance the functionality and ridability of your boat.

PATENTED AUTOWAKE 2 SYSTEM

In addition to automatically adjusting ballast for a precisely-shaped wake and wave, AutoWake 2 features our groundbreaking Predictive State technology.

PATENT-PENDING AMPLITUDE DISPLAY

This display lets you track and optimize your wakes and waves and shows you how displacement of your boat in the water affects wake and wave size and shape.

FXONE POWER FOLDING TOWER

This industry-leading innovation is fashioned from billet aluminum and tubing for strength and style, and easily folds and deploys with the push of a button.

BOLD DESIGN

Stand out with a boat that features striking contours and stylish purpose.
A boat that's been built just for you and designed around your unique personal style.

ACCESSORY & ACCENT LIGHTING

From the LED windshield accent lighting to LED tower speakers and optional strobe transom lighting, your Supra® makes a bold statement from dawn to dusk.

BILLET ALUMINUM COMPONENTS

Every Supra® is built with color-matched billet aluminum components strategically placed throughout that give your boat a sturdy and stylish new look.

COLORS & CUSTOMIZATION

Make your Supra® stand out even more by tailoring it all to your specifications with unique gel colors, graphics, interior vinyls, audio packages and even badging.

REFINED INTERIORS

Supra® offers even more standard features and industry-leading fit and finish that add a premium level of comfort and convenience, making your day on the water truly stand out.

MISSION CONTROL HELM

Features the VISION Touch™ system's full-color screen, making everything from controlling AutoWake® to cranking the music as easy as pushing a button.

MAX COVERAGE BIMINI

The all-new Max Coverage Bimini deploys and stows in minutes and features nearly eight feet of coverage and room for two surf boards.

PREMIUM SEATING

Every Supra® interior delivers premium style and function, including a standard power adjustable heated driver's seat and convertible rear facing seat with cockpit table.

THE POWER WITHIN

At the core of your Supra® is the proven Indmar® Raptor engine. Based on the same state-of-the-art engine as the Ford® F-150 SVT Raptor and Ford F-Series Super Duty Truck, this 6.2 L 16-Valve V8 beast provides more torque when and where you need it, ultra-low emissions, a quieter ride and better fuel economy.

QUIET RIDE

The overhead cam engine design coupled with a cast iron engine block and exhaust manifolds makes for an engine that runs smoother and quieter. The result is an easier conversation while the boat is running.

FUEL EFFICIENCY

The Raptor's computer-controlled sequential firing multi-port EFI system, wide-band air/fuel sensors and dual spark plugs make for a leaner running engine. Meaning more time on the water and less time at the pump.

MORE TORQUE AT LOW RPMS

With best-in-class torque and horsepower at lower RPM ranges (2,500-3,500), the 6.2 L Raptor Series provides faster acceleration, less time to plane, reduced wear-and-tear and better fuel economy.

ULTRA-LOW EMISSIONS

The Raptor's high-strength cast iron manifolds and stainless steel tubular catalyzed exhaust better contains heat, producing less exhaust emissions that surpass the industry's required four-star rating.

WE LITERALLY RAISED THE BAR ON INNOVATION

The all-new Supra® FxONE Power Folding Tower redefines the towboat tower design. Fashioned from billet aluminum and tubing for strength and style, it's easily deployable with the simple push of a button. The FxONE Power Folding Tower features power actuators that lock securely into position at full deployment or full collapse, making your Supra® easily trailered with the tower up or down. What's more, it's standard on every model—something no other competitor can say.

MAX COVERAGE BIMINI

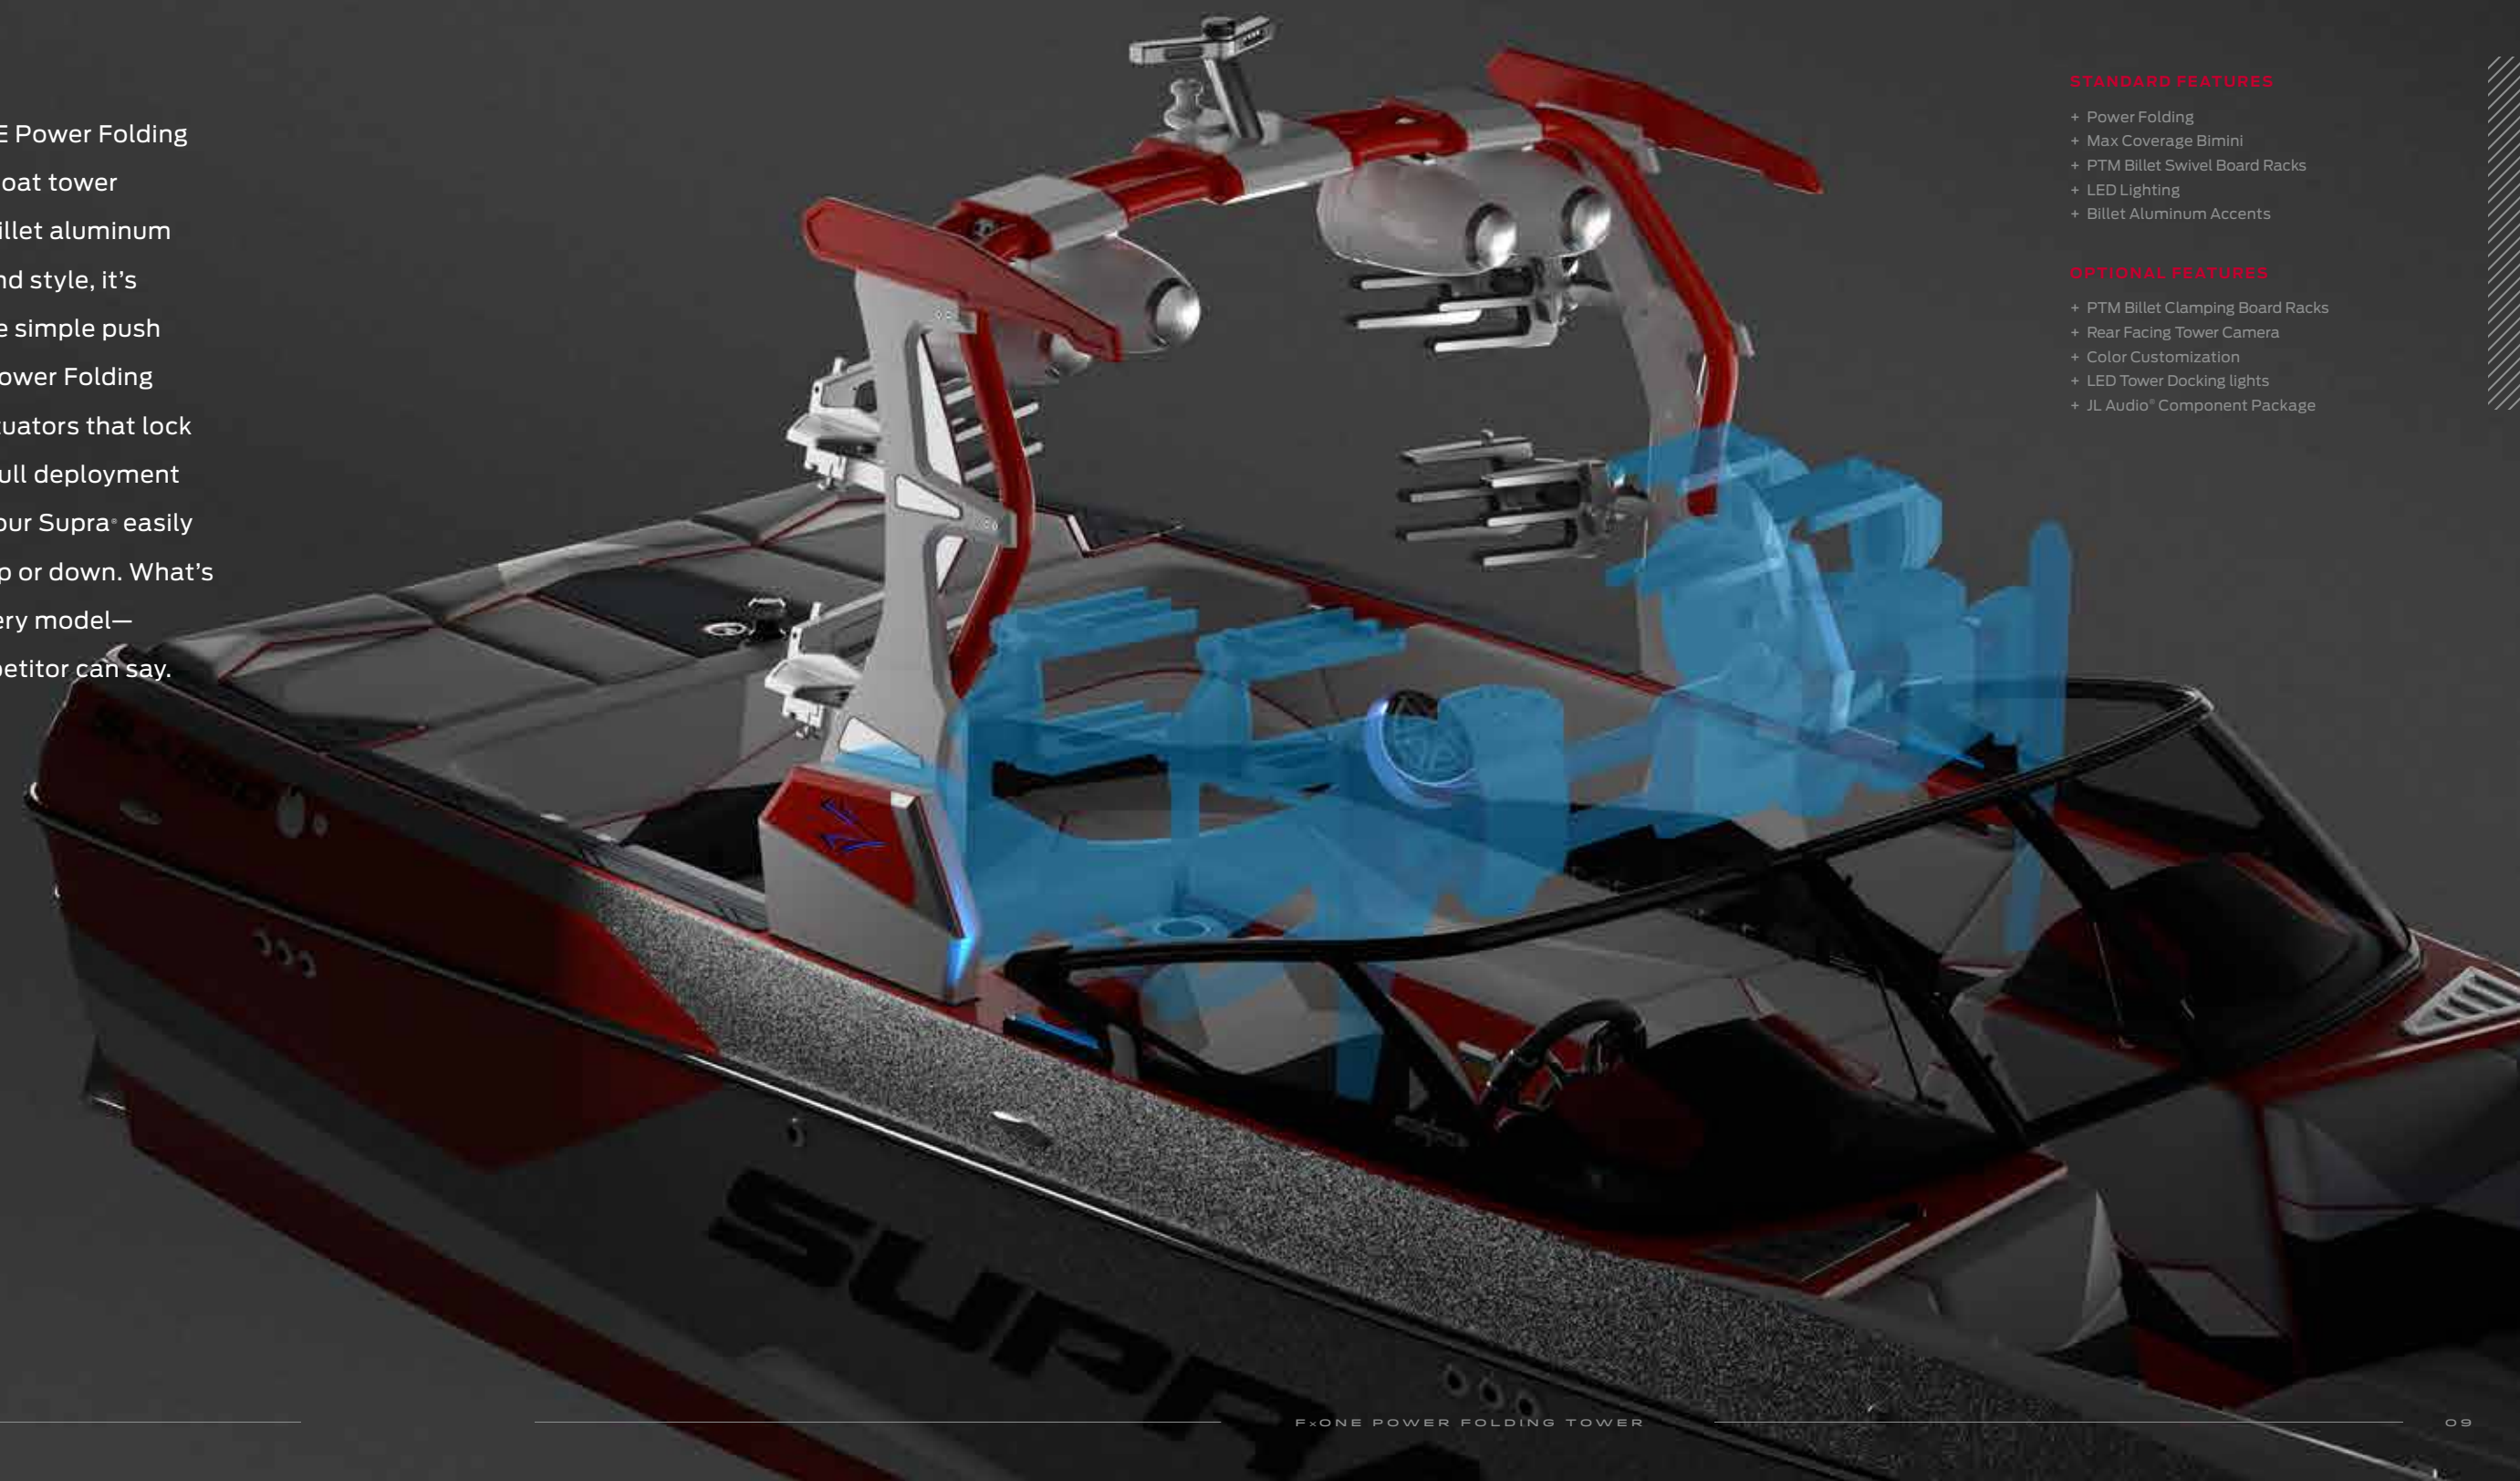

Say goodbye to Bimini-related stress. With no pins to remove or insert when stowing or deploying, the Max Coverage Bimini easily deploys in mere minutes. Best of all, only one person is necessary to stow and deploy it as everything easily clicks into place with internal latching mechanisms.

STANDARD FEATURES

- + Power Folding
- + Max Coverage Bimini
- + PTM Billet Swivel Board Racks
- + LED Lighting
- + Billet Aluminum Accents

OPTIONAL FEATURES

- + PTM Billet Clamping Board Racks
- + Rear Facing Tower Camera
- + Color Customization
- + LED Tower Docking lights
- + JL Audio® Component Package

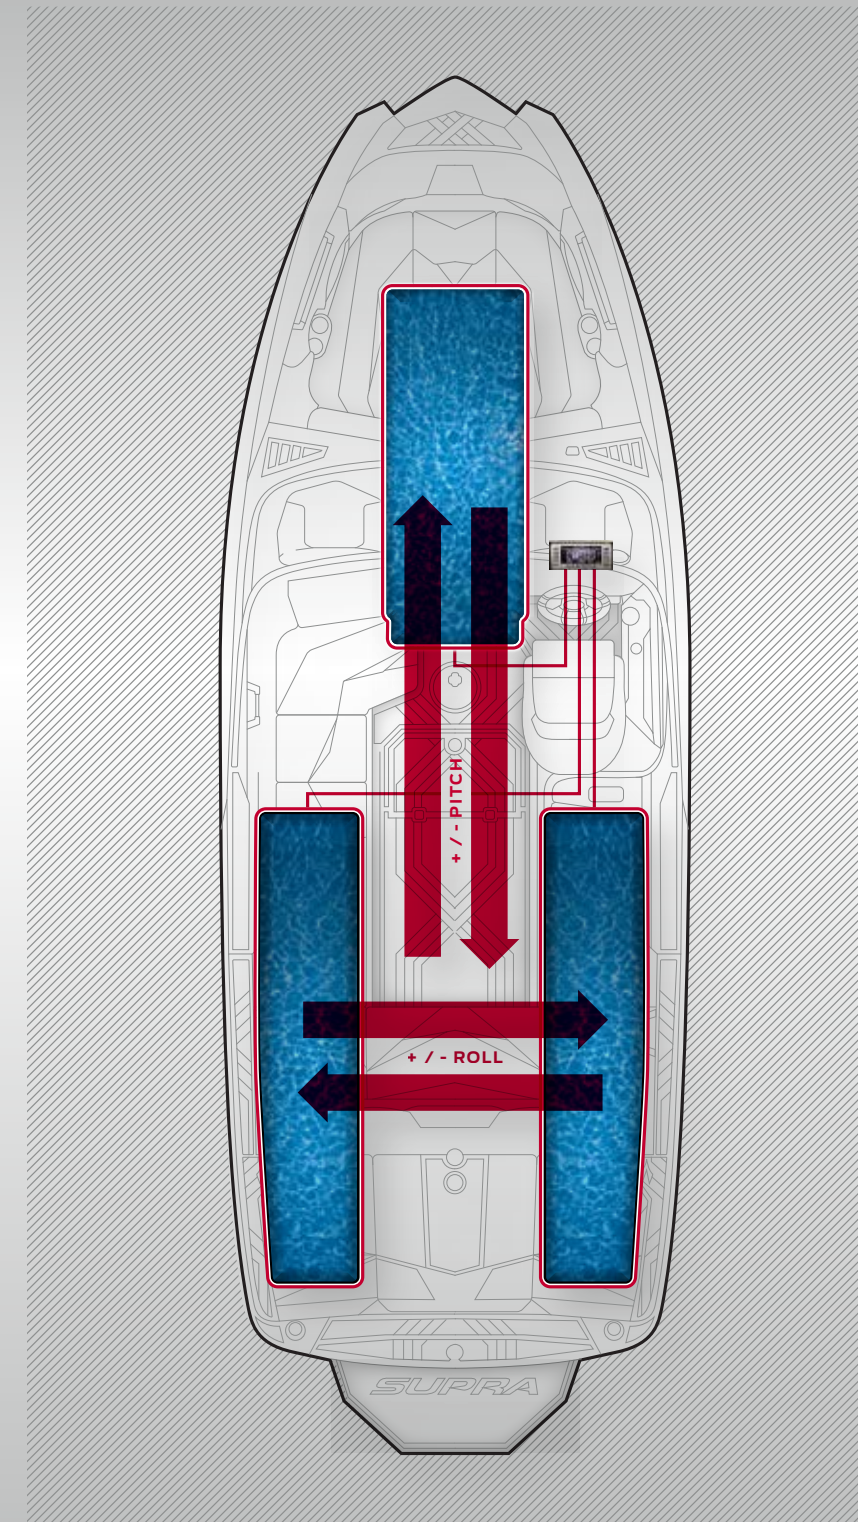

INTRODUCING AUTOWAKE® 2 WITH PREDICTIVE STATE TECHNOLOGY

In addition to automatically adjusting ballast for a precisely-shaped wake and wave, our second generation of AutoWake features predictive state technology that begins measuring and adjusting ballast before the boat even leaves the dock.

The AutoWake® patented technology is covered by
U.S. Patent Nos. 8,798,825 and 9,689,395.

PERFECTION
AT YOUR
FINGERTIPS

*AutoWake® is fully
integrated with
Supra VISION Touch™
for easy operation.*

MEGA VELOCITY BALLAST SYSTEM

- This system features six fast-filling ballast pumps, drastically reducing the time it takes to get to the predicted state.

CUSTOM RIDER PROFILES

- Your personalized wake is always waiting with customizable rider profiles.

PITCH & ROLL ADJUSTMENTS

- AutoWake® constantly measures pitch and roll and automatically drains or fills ballast to maintain optimal hull position to produce precise wakes and waves.

PREDICTIVE STATE TECHNOLOGY

- This all-new innovation senses and fills ballast to predicted levels to provide a precise wave.

CREATE YOUR SIGNATURE WAKE

Whether you are surfing, wakeboarding or taking a slalom set, Swell™ Surf 3.0, Supra Launch System and the Supra Smart Plate™ work together to give you the ultimate ride. With these three systems you're guaranteed to have the best experience on the water.

SWELL™ SURF 3.0

We've revamped the Supra Swell™ System to provide tall waves with long pockets and optimal push that are consistent on both sides. Perfect for riders who like to transfer from side to side.

SUPRA SMART PLATE™

The Supra Smart Plate™ has multiple functions. It can adjust the length and shape of the wake or wave to make it customizable for a rider. The plate can also be deployed to smooth out rough water.

SUPRA™ LAUNCH SYSTEM

The Supra Launch System puts your boat on plane faster with full ballast. Both the Swell™ Surf System and Smart Plate™ deploy during acceleration, providing lift and bringing you from a standstill to gliding across the water in no time.

Skier's Choice reserves the right to change model line specifications, equipment, color schemes and pricing at any time without notice or incurring obligations. It is the Dealer's responsibility to adhere to all State and Local regulations and laws governing minimum requirements needed on each boat, such as trailer brakes, kill switches, and other safety equipment.

Skier's Choice encourages all boating participants to learn and follow safe boating practices. There are risks associated with boating and water sports activities. Be mindful of the risks, familiarize yourself with the environment, know your limits, and conduct yourself accordingly. Read your Owner's Manual and comply with all warnings. For additional safety information, please visit the US Coast Guard Auxiliary at www.cgauoxd.org or the Water Sports Industry Association at www.wsia.net.
