

Ultimate Outboard Model Year Identification Guide

Johnson - Evinrude - OMC - Gale
Mariner - Mercury
Yamaha
Suzuki
British Seagull

AGLG Sales

Contents

Section	Description
<u>Section 1</u>	Johnson Evinrude OMC GALE To 2005
<u>Section 2</u>	Mercury USA and Europ Sourced 1963 to 2005
<u>Section 3</u>	Mariner Japan Sourced 1974 to 1992
<u>Section 4</u>	Yamaha From 1973
<u>Section 5</u>	Suzuki 1975 to 2002
<u>Section 6</u>	British Seagull

Section 2

Mercury Outboards USA & Europe Sourced 1963-2005

To retrieve the model year of your engine go to the line (or paragraph) corresponding to the engine model. Select the column with a serial number that is slightly lower than that of your engine. In the column nearby you will find the first serial number of the following model year. If your serial number falls between the two, your engine was built in the year selected.

For example: your engine is a 50, three cylinders, and two-stroke, with serial number 0P096282. The closest you find is 0P095159 in the 2001 column. If you look in the 2002 column, the first serial number is 0P154480. This means that your engine is from 2001 model year. Each list is made up in a similar way.

Note that some numbers for outboard engines between 1986 and 1989 are missing.

Section 3

Mariner

Japan

Sourced

1974-1992

To retrieve the model year of your engine go to the line (or paragraph) corresponding to the engine model. Select the column with a serial number that is slightly lower than that of your engine. In the column nearby you will find the first serial number of the following model year. If your serial number falls between the two, your engine was built in the year selected.

For example: your engine is a 50, three cylinders, and two-stroke, with serial number 0P096282. The closest you find is 0P095159 in the 2001 column. If you look in the 2002 column, the first serial number is 0P154480. This means that your engine is from 2001 model year. Each list is made up in a similar way.

Note that some numbers for outboard engines between 1986 and 1989 are missing.

Yamaha Model Guide

The Model Year is indicated by a lower case letter in the black field in the lower left or right corner of the motorplate. Note that the letters have been reused throughout the years.

	1980 - S	1990 - D	2000 - T
	1981 - R	1991 - C	2001 - S
	1982 - Q	1992 - B	2002 - R
1973 - Z	1983 - P	1993 - A	2003 - Q
1974 - Y	1984 - N	1994 - Z	2004 - P
1975 - X	1985 - K	1995 - Y	2005 - N
1976 - W	1986 - J	1996 - X	
1977 - V	1987 - H	1997 - W	
1978 - U	1988 - G	1998 - V	
1979 - T	1989 - F	1999 - U	

Understanding the Model Codes

The Model Names and code letters make it easy to select exactly the right outboard. As an example here, the prefix letter indicates the basic engine type (Two Stroke, Four Stroke etc), the number gives a guide to approximate shaft horsepower, and the single letter immediately after the number shows the 'generation' of the model. Any additional code letters identify the variant of the engine (i.e. Electric or Manual Start, steering method, type of tilt system, shaft length etc).

Section 5

Suzuki

Year	Code	Model

Note: Letter 'L' after engine lettering or number denotes long shaft model * = Current production models		

Section 6

BRITISH SEAGULL

- From 1963 a letter and number code is used at the end of the engine number to denote the month and year of manufacture.
- The letter indicates the month and year of manufacture i.e. A3 = JANUARY 1963, B3 = FEBRUARY 1963, etc.
- From 1973 two letters were used in the code to indicate the month i.e. AA3 = January 1973, BB3 FEBRUARY 1973, etc.
- The letter 'L' is not used in this code sequence.
- Therefore identification of a model and date of manufacture can be found as follows: WSPCL 1734 BB3.
- WSPCL indicates this is a long shaft Silver Century Plus. 1734 is the production number and BB3 indicates it was manufactured in February 1973.
