Notes

1. Peterborough products may show a finishing list on the engine plate e.g. F1895. It is very important to quote this when spare parts are required.
2. 1300 Series engines have a different serial number format. They have 7 digits after the middle letter, which is an N or a P. There is no year letter at the end e.g. WS4486P1354691.
3. PK Series engines are derived from the 1106D Series platform but are only stage II EU 2007 genset emissions compliant.
